

# Mansfield Board of Education 2025-2026 District Budget

Proposed January 16, 2025

## INTRODUCTION

Dear Members of the Mansfield Board of Education and the MPS School Community:

I am pleased to share the proposed 2025-2026 budget that is aligned to our district’s Mission and Core Beliefs. The budget reflects the needs of our students, staff, and programs as we endeavor to support “each and every child.” The production of a school district budget requires the efforts and tenacious focus of a talented team that includes our administrators, teachers, staff members, and the town’s Finance Department.

Mansfield Public Schools believes that we must ignite student curiosity, discovery, and passion that leads to deep learning. When students embrace relevant and authentic experiences, they are better equipped to meet the challenges of high school and post-secondary careers and studies.

I want to thank all those who helped create, research, and present the 25-26 budget as we endeavor to be fiscally responsible, transparent, and responsive. Mansfield is an amazing district that thrives on innovation, tradition, and passion as we embolden each other to “Know Students, Support the Whole Child, and Ensure Deep Learning” for all of our scholars.

Sincerely,

Peter Dart  
 Superintendent of Schools  
 Mansfield Public Schools

### Core Beliefs

-  Lead with **EQUITY**.
-  Develop the whole **CHILD**.
-  Ensure **ACTIVE** learning.
-  Build **PARTNERSHIPS**.
-  Prepare **GLOBAL** citizens.
-  Grow **EDUCATORS**.

## CALENDAR

January 16, 2025	Board Meeting	Budget Introduction and Overview
January 23, 2025	BOE Workshop	MES/MMS; General Instructional Programs
January 30, 2025	BOE Workshop	District Management & Support Services
February 6, 2025	Board Meeting	Budget Review and Adoption
April 7, 2025	Town Council	BOE Budget Review
May 13, 2025	Town Meeting	Annual Town Meeting

## HOW TO USE THIS BOOK

The budget for fiscal year 2025-2026 is comprised of legally required fiscal information, as well as additional information that may be helpful to the reader in understanding the full scope of the activities for which the Board is responsible.

The **Introduction** and **Budget Overview** sections provide key information regarding the district’s Mission, Core Beliefs, Enrollment, Staffing, and Schools. In addition, Key Drivers, Cost Saving Strategies, Budget Components, and Budget History are highlighted. Both sections provide context and background that supports the budget.

There are three primary sections: **General Education, District Management, Student Support Services**. Each section includes detailed information organized by activity and object codes.

“General Education” supports all students Pre-Kindergarten through Grade 8. Information is presented by activity (i.e., Art, Math, Science) with a brief description and highlight. Within each activity, specific objects of expenditures (i.e., supplies, technical services) are listed.

“District Management” contains district-wide activities that support centralized services and supports such as Professional Development. The “Student Support Services” portion of the budget contains costs associated with providing services to those identified as needing specialized instruction.

## MPS MISSION & CORE BELIEFS

### Our Mission

It is the **Mission** of the Mansfield Public Schools, in partnership with the Mansfield community, to ensure that each and every child develops the knowledge, skills, and dispositions essential for civic engagement and personal excellence in learning, life, and work within our local and global community.

### Core Beliefs

**Lead with equity.** We believe that children must be supported to learn and develop in a safe, antiracist environment free from discrimination, bias, and prejudice against all people where conscious efforts and intentional actions ensure equitable opportunities.

**Develop the whole child.** We believe schools have an obligation to teach academic and social skills while nurturing the emotional, physical and behavioral development of all children.

**Ensure active learning.** We believe students learn best when they engage in joy-filled, empowering, intellectually challenging, and personalized experiences that deepen understanding of the world while building academic and social-emotional skills.

**Build partnerships.** We believe engaging families and the community as equal partners is necessary to fulfill the mission and vision of Mansfield Public Schools.

**Prepare global citizens.** We believe schools must develop young people to be stewards of their community, nation, and the larger world around them by instilling the skills needed to contribute to a peaceful society and sustainable world.

**Grow educators.** We believe that providing an environment that allows for inquiry, supports risk taking, provides for continuous learning, and attends to the whole person is as important for educators as it is for students.

**MANSFIELD ELEMENTARY SCHOOL**

Mansfield Elementary School (MES) is home to nearly 550 of Mansfield’s youngest learners in a state-of-the-art, net-zero facility. Designed to nurture and inspire, MES features modern classrooms, welcoming common areas, and vibrant outdoor spaces. The building itself serves as a learning tool, empowering students to explore sustainability through its eco-friendly design, interactive exhibits, and green initiatives like composting and recycling—fostering environmental stewardship from an early age.

Students at MES engage in enriching, play-based, and hands-on learning experiences that support their academic, social, and emotional growth. Play is woven into the school day to nurture creativity, collaboration, and problem-solving. Literacy instruction emphasizes reading engagement and strong foundational skills, while math workshops build numeracy, computational fluency, and flexible thinking. Inquiry-based science and social studies lessons spark curiosity and critical thinking, and yearlong, theme-based enrichment activities connect student learning to the world around them.

A whole-child approach is further supported by dynamic Related Arts programs, including STEM, art, physical education, Spanish, and music, with opportunities in general music, strings, and band. These programs ensure every child can explore their interests and develop their unique talents.

MES educators are dedicated to fostering curiosity, creativity, and a lifelong love of learning. Together, we create a vibrant community where innovation, play, and joy empower every student to thrive.

**MANSFIELD MIDDLE SCHOOL**

Mansfield Middle School (MMS) is a Middle School in Northeast Connecticut serving nearly 420 students in grades five to eight. Using interdisciplinary teams of teachers and differentiated instruction in a heterogeneous classroom environment, MMS strives to ensure that every student reaches their greatest potential. Efforts are supported by a modern facility that includes a Library Media Center and an extensive school computer network. We are also a University of Connecticut Professional Development School. In 2004 the Connecticut Association of Schools recognized MMS as one of five middle schools in the state with exemplary teaming practices.

Mansfield Middle School is committed to the physical, social, emotional, and intellectual growth of every child. Staff believe in the success of children, that children mature at dramatically different rates, and that varying the teaching methods, adapting the curriculum to suit individual students' needs, and providing challenges will help develop knowledge, self-esteem, independent thinking, and community awareness.

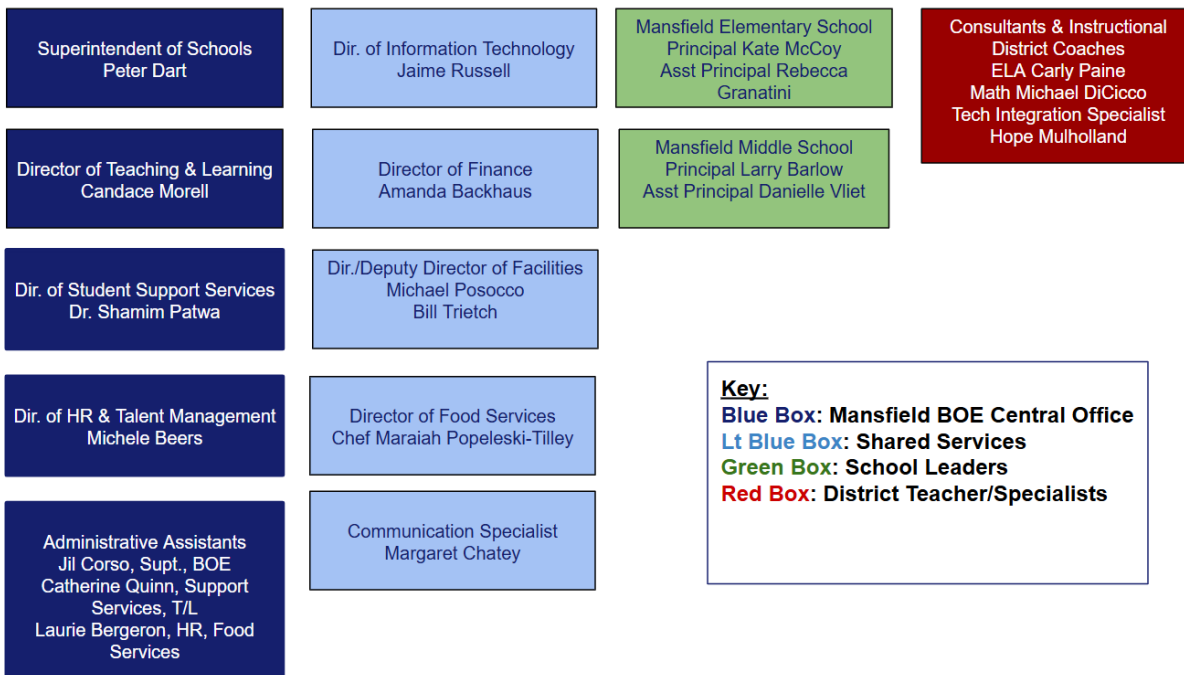

Mansfield Middle School promotes a safe and respectful environment that encourages intellectual risk taking, critical thinking, and perseverance through student centered learning experiences. MMS prepares students for success and citizenship in our changing world through the establishment of high expectations connected to content standards and 21st Century Skills.

## RETURN ON INVESTMENT

Return on investment (ROI) measures the cost of an investment compared to the profit or benefit received. While this is a metric found typically in business ventures, the ROI for Mansfield Public Schools can be illustrated based on the district's outcomes, achievements, and programs/services rendered. Below is a curated list highlighting the many accomplishments achieved this past year that were directly supported by the district's budget. However, it is important to note, that the lived experiences of students and/or staff members are far greater than a metric or list of accomplishments given the personalization of our programs, supports, and opportunities.

- Mansfield Elementary School (MES) ranked #11 in Best Elementary Schools in CT US News & World Reports
- Mansfield Middle School (MMS) ranked #20 in Best Middle Schools in CT US News & World Reports
- MES CSDE School of Distinction for High Growth in Mathematics for All & High Needs Students
- Increased Overall District Performance in Math
- Increased Overall District Growth in English/Language Arts
- Increased CSDE District Accountability Index by more than 4 points
- Decreased Student Chronic Absences by over 6%
- 4 MPS Educators named Fund for Teachers Fellows
- Increased Educator Diversity in Mansfield
- CT Teacher of the Year and National Teacher of the Year Finalist for National History Day Project
- CAS Assistant Principal of the Year 2025 Finalist
- MMS Math Team placed 2<sup>nd</sup> in National Math Team Competition
- CABE Communication Awards for Computer District Budget, Website, and Video Projects
- MMS CT History Day Regional Contest: 2 Outstanding Entry Awards and 3<sup>rd</sup> place Group Performance Award
- Increased number of Teacher Leaders & Staff Leadership Roles
- State Teacher of the Year participants, semifinalists, and finalists over multiple recent years
- Increased Field Trips, Enriching Experiences, and After School Activities
- Increased number of students participating in performing groups (strings, orchestra, band, chorus, theater)
- Launched new Full Day Pre-Kindergarten Program
- 4<sup>th</sup> Grade Bicycling Program launched in partnership with Bike Mansfield & EHHD

## MANSFIELD FOOD SERVICES

The Mansfield Public Schools Food Services department is the sponsor for the USDA National School Lunch and School Breakfast Programs. The Food Service Department is responsible for implementing and overseeing the programs as outlined by the Connecticut State Department of Education and USDA regulations and is financially managed as an independent, self-funded non-profit in partnership with Mansfield Public Schools. The Superintendent and Director of Finance certify compliance and help to manage fund allocations and human resources. Financial information, including the annual budget, is separate from the proposed Board of Education budget and is not included in this book. However, given interest and importance of this highly visible program, it is appropriate to provide information within the budget presentations. Food Services annually shares information with the Board of Education that

includes program updates, financials, staffing, meal service data, and free/reduced meal aggregated data.

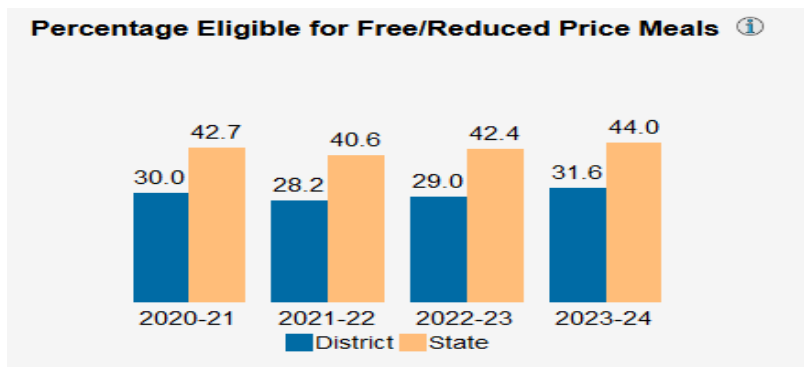

The MPS Food Service team has a staff of 17 and serves about 1300 meals per day to our students. All staff positions are self-funded by Food Services. The program is led by the Director, Maraiiah Popeleski-Tilley, who is a trained Chef and Registered Dietitian-Nutritionist.

The MPS Food Services program focuses on scratch cooking, which is unique for a school food program. Scratch cooking in school nutrition programs is

important because it increases quality, customer satisfaction, and can be more culturally diverse as it showcases a variety of ingredients often not found in manufactured foods. Scratch cooking is also better for the environment and our food systems. MPS Food Services uses many locally grown products which include fruits, vegetables, and hyperlocal milk from Mansfield cows. Menus reflect a wide variety of cuisines and foods and

support the department's motto: There are no sad lunches.

**PROPOSED 2025-2026 BUDGET**

The proposed budget for the Mansfield Board of Education for 2025-2026 is \$25,605,000. It represents a 3.24% increase over the current year. Of the total, salaries and benefits increased by \$514,340 from the prior year. A comparison of the FY 2024-2025 to 2025-2026 budget follows:

	2023-2024 Actual	2024-2025 Budget	2025-26 Proposed	Increase/ (Decrease)	Percent Change
<b>Salaries &amp; Benefits</b>					
Certified Salaries	\$ 11,383,549	\$ 11,682,390	\$ 11,813,575	\$ 131,185	1.1%

**PER PUPIL COST SUMMARY**

Year	Adopted Budget	District Enrollment	Cost Per Pupil	Change	Percentage Change
2014-2015	\$21,193,884	1241	\$17,078	\$401	2.40%
2015-2016	\$22,022,750	1247	\$17,661	\$583	3.41%
2016-2017	\$22,980,500	1213	\$18,945	\$1,285	7.27%
2017-2018	\$23,460,160	1136	\$20,652	\$1,706	9.01%
2018-2019	\$23,460,160	1140	\$20,579	-\$72	-0.35%
2019-2020	\$23,637,850	1131	\$20,900	\$321	1.56%
2020-2021	\$23,467,540	1037	\$22,630	\$1,730	8.28%
2021-2022	\$24,006,080	997	\$24,078	\$1,448	6.40%
2022-2023	\$23,963,290	1024	\$23,402	-\$677	-2.81%
2023-2024	\$24,801,880	1001	\$24,777	\$1,375	5.88%
2024-2025	\$24,801,880	963	\$25,755	\$978	3.95%
2025-2026*	\$25,605,000	963	\$26,589	\$834	3.24%

\*Proposed expenditures and projected enrollment. The above table provides a summary of the district’s annual budget appropriation, total students, and per pupil expenditures based on the division of the year’s total budget by the total number of in-district students within a specific year who were enrolled on 10/1/24.

**BUDGET DRIVERS**

Major cost drivers include obligated salaries and benefits that represent 85% or \$21,621,990, of the proposed budget. Student transportation costs are 5% of the budget.

- Negotiated Salary Agreements
- Energy & Building Maintenance
- Inflation
- Contracted Services
- Special Education

Major Cost Drivers	Increased By
Salaries	\$395,020
Benefits	\$119,320
Transportation	\$167,590
Energy Cost	\$41,000
Outplacement Tuition	\$164,000
MMS Building Maintenance	\$20,500

## COST SAVING STRATEGIES

During the budget building process, factors such as enrollment, consolidation, and attrition are utilized as mitigating strategies while ensuring the quality of programs, services, performance, and innovation are maintained and/or increased. Mansfield leaders continued to “right size” the district, following Board of Education class size guidelines, aligning master schedules to best utilize staff, and looking for appropriate reductions or savings in consumable supplies. In addition, the budget strategically uses entitled federal and state grants (see below) as well as reoccurring fund balances to appropriately offset increases.

Major Cost Savings	Decreased By
Staffing	\$423,149
Teacher Leaders	\$10,400
Equipment & Repair	\$111,740
Outside Evaluations (Special Education)	\$15,000
Fuel Oil	\$5,000

## GRANTS & ENTITLEMENT PROGRAMS

Grants and federal/state entitlement programs are essential supplementary resources that help us mitigate fiscal challenges that support the district budget. These funds supplement and not supplant the district’s requirement to serve all students and support the professional development of staff. Each grant awarded has different requirements, timelines, and deliverables. Most grants do not follow the Town’s fiscal year that ends June 30<sup>th</sup>. The Board of Education continues to encourage district leadership to seek out additional funds to help offset fiscal challenges. In an effort to increase transparency, the table below shows current MBOE grants.

Grant	Award
ARPA – Para Educational Professional Development	\$5,000
Consolidated Title IA (Early Childhood/Intervention)	\$156,352
Consolidated Title IIA (Professional Development) LEA Allocation - \$24,325.25 Private Schools Allocation – \$1,572.75	\$25,898
Consolidated Title IIIA (multilingual learners)	\$9,830
IDEA 611 (Special Education)	\$286,353
IDEA 619 (Special Education)	\$17,817
Title ID (Natchaug – Journey School; At-Risk)	\$10,240
Title IV Part A (Technology/Wellness) LEA Allocation – \$10,775.80 Private Schools Allocation - \$592.20	\$11,368
ARPA School Mental Health Workers (Year 3)	\$62,650

## CAPITAL IMPROVEMENT REQUESTS

Capital Improvement requests to Town Council that are considered for inclusion in the Mansfield Town Budget are outside of the scope of this proposed Board of Education Budget. However, the strategic use of these funds continues to help the Board of Education secure needed supports, resources, and improvements for services and facilities.

In past years, Capital Funds have supported key investments in upgrading and addressing needs that included replacing stage lighting, generator, flooring, and exterior doors for the middle school. These funds will coordinate with two critical grant funded projects that include upgrading HVAC systems, elevator, and security entrance for the main office. Past technology requests have included upgrades to WIFI, cybersecurity, and fiber infrastructure.

Below are the 25-26 capital improvement fund requests. Note that these requests are not part of the Mansfield Board of Education budget and are under the purview of Town Council:

**Facilities Capital Improvement Request: \$600,000**  
MMS Facility Improvements (windows, cafeteria, flooring)

**Technology Capital Improvement Request: \$100,000**  
MMS Smartboard Replacement Cycle, MMS Bandwidth Switches (yr 2), District Data Backup Server, and School Security.

**STAFFING CHANGES**

Staffing is a major driver in the district budget and is adjusted each year to meet the goals of the district, the needs of students/staff, and reflect enrollment. The 25-26 staffing plan acknowledges decreased student enrollment by reducing three classroom positions while maintaining BOE Class size guidelines. Proposed staffing increases include two Social Workers that were transferred during the 24-25 school year from Mansfield Human Services to the Board of Education in addition to a Math Interventionist. Finally, the budget also proposes eliminating a non-certified Behavior Technician position and adding a Board Certified Behavior Analyst (BCBA) position that would better align to the needs in the elementary school. The BCBA would be classified as a “non-certified” position (that is, outside of the teacher collective bargaining group) and is listed under Student Mental Health Services.

The following FTE (full time equivalency) positions are recommended reductions:

- 1.0 FTE 2<sup>nd</sup> Grade Teacher
- 1.0 FTE 7<sup>th</sup> Grade Teacher
- 1.0 FTE 8<sup>th</sup> Grade Teacher
- 0.5 FTE Enrichment (MMS)
- 1.0 FTE Behavior Technician (MES)

The following FTE positions are recommended staffing increases:

- 2.0 FTE School Social Workers (currently supported by Mental Health Grant and Town)
- 1.0 FTE Math Interventionist (MES)
- 0.5 FTE Technology Integration Specialist
- 0.25 FTE Music/Strings Educator (MES; currently on staff at 0.75 FTE)
- 1.0 FTE Board Certified Behavior Analyst (BCBA; MES)
- 0.3 FTE Paraeducator (MES; converting part time positions into 2.0 FTE paraeducator positions)

Summary of Proposed Certified Changes:

- Reduce 3.5 FTE Certified Staff
- Add 3.75 FTE Certified Staff
- Net +0.25 FTE Certified Staff

**Projected Average Class Size (based on 1/2/25 enrollment)**

**PRE-KINDERGARTEN**

The Mansfield Pre-Kindergarten Program supports children in an integrated and developmentally appropriate experience. There are three classrooms with a day designed to meet the needs of all learners. The curriculum is based on the Connecticut Early Learning and Developmental Standards (ELDS) that provides students with opportunities to collaborate, communicate, think critically, and creatively express themselves. Play theory supports programming in guiding young learners to see themselves as capable and competent in a child-centered classroom. The Pre-K program offers annual universal screening for students and works in collaboration with Birth-to-Three services. Pre-Kindergarten teachers work collaboratively to align programs with the District’s Core Beliefs and the Portrait of the Graduate.

## LANGUAGE ARTS/READING

The Mansfield Language Arts/Reading is a balanced literacy program that is supported by evidence-based research and best practices. It begins for all children in preschool and continues through eighth grade. Multiple learning opportunities, designed to meet the varied needs and strengths of individual students, are provided in listening, speaking, reading, writing, spelling, and vocabulary development. Elementary students experience explicit instruction in letters/sounds, phonological awareness, and phonics while supporting fluency, comprehension, and literacy. All teachers provide direct instruction through mini-lessons, 1:1 conferences and small group instruction. The language arts/reading program from fifth through eighth grade emphasizes the sequential development of effective communication skills, teaching students to think, organize, and express ideas and feelings, while increasing their understanding of other points of view. Through reading and literature, students interpret and evaluate a wide variety of regional and multi-cultural texts. In language arts,

students practice and refine communication of their own ideas while immersed in different modes of writing (narrative, informational and argumentative) and genres (realistic fiction, poetry, reviews, essays), and other forms of communication (oral storytelling, debate, speech).

## MATHEMATICS

Mansfield's Mathematics Program is aligned to state and national standards that offers a scope and sequence of skills to build mathematical conceptual and procedural understanding. Problem-solving skills, mathematical concepts, and practical applications are presented in a manner consistent with each child's ability. District core resources include *Bridges in Mathematics (PreK-Gr 5)* and *College Preparatory Mathematics (CPM gr 6-8)*. Students have opportunities to develop foundational skills as well as soft-skills associated with problem-based 21<sup>st</sup> century work. To this end, additional resources, such as Exemplars, 3-Act Math Tasks, and Contexts for Learning, are used to

supplement the core program.

Schools provide mathematics intervention to accommodate the needs of students. The *Math Plus* program continues to challenge our highest achieving math students beginning in grade 5. The *Math Plus* program compacts grade 5 *Bridges* units with grade 6 *CPM* units. *Math Plus* students entering grade 6 are on track to take geometry in grade 8. The *Math Plus* program compacts grades 7 & 8 *Math CPM* units to build understanding of number, algebraic problem solving, and linear equations.

**SCIENCE**

The science program uses a variety of materials to ensure that instruction is aligned to Next Generation Science Standards (NGSS), developmentally appropriate, and is rich with hands-on experiences. Science instruction emphasizes an inquiry-based approach that is grounded in investigating and understanding natural phenomena. Explanatory models are developed and revised by students to explain phenomena. Students also engage in engineering design to solve real-world problems. Science instruction has expanded to include the integration of STEM (Science, Technology, Engineering, and Mathematics).

Science is taught to all elementary students with the support of the classroom and enrichment teachers. Students are engaged through scientific phenomena and exploration through a variety of units and experiences that explore connections across the four domains of science that include Physical Science, Life Science, Earth and Space Science, and Engineering Design. Students use the science and engineering practices that help to define the process and tools of inquiry. The use of “Maker-Space” lessons, LEGO Engineering, outdoor learning, and field trips continue to reinforce exploration and inquiry.

Science is taught to all elementary students with the support of the classroom and enrichment teachers. Students are engaged through scientific phenomena and exploration through a variety of units and experiences that explore connections across the four domains of science that include Physical Science, Life Science, Earth and Space Science, and Engineering Design. Students use the science and engineering practices that help to define the process and tools of inquiry. The

The development of scientific methods and procedures, as well as students’ understanding of the social responsibilities of science forms the basis of the middle school science program. The fifth through eighth grade curricula consists of earth science, life science, physical science, and environmental sciences.

**SOCIAL STUDIES**

Elementary social studies instruction teaches the content knowledge and skills that enable young people to make informed decisions as citizens with various racial, ethnic, socioeconomic, and cultural backgrounds with various lifestyles, experiences, views, and interests. In addition, students gain an understanding of their multiple roles in a variety of settings: the family, school, community, state, nation, and the world. Social studies units are integrated with reading instruction, as well as taught during specified times throughout the year. The Social Studies curriculum team has identified key topics to be taught in each

grade level and has expanded the definition of the Citizen of the World benchmarks to include district equity work.

The middle school social studies program develops skills and attitudes that make participation in our democracy possible. Areas studied include U.S. history and world history, ancient and modern America. World cultures and regions are studied to gain an understanding and appreciation of the similarities and differences among people. Emphasis on current issues helps students understand the world, their place in it, and the way in which we are all interconnected. The inquiry process is critical for effective student understanding of history, geography, civics and economics. The program engages students in active inquiry as students interact with Social Studies content. During the middle school years, students will learn about the American Revolution, World History, focus on global citizenship with units on voting rights, genocide, the Cold War, and the medieval trade empires of West Africa. Eighth graders visit Boston's Freedom Trail, the Connecticut State Capitol and Museum of Connecticut History; they participate in a Model Congress where students pass laws that affect their school day and, in an Ellis Island simulation, students play the role of immigrants entering the United States.

**ART**

Art education in grades K-4 focuses on using the elements and principles of art as a foundation while introducing students to a wide variety of media and art techniques through a flexible, sequential approach. Building student self-confidence in art is a goal. The program strongly interweaves art history, art appreciation, and aesthetics across the grades. Students work collaboratively and connect art to regular classroom instruction when possible. There is an emphasis on increasing the understanding and use of the 7 Elements of Art; line, color, shape, value, texture, space, and form, the building blocks of all art. These

7 elements serve as the basis for building an art vocabulary so students can intelligently discuss not only works of art, present and past, but how art affects our daily lives.

Art is offered to all students in grades five through eight on a rotating quarterly basis. All students participate in art activities using a variety of tools, techniques, and media. Students engage in creative problem solving, as well as exercising their abilities to analyze, critique, and convey ideas. In the process, students develop an understanding and appreciation of art and art history. Students are involved in a variety of choice-based learning targets and opportunities as evidenced in the creative work by our students on display in the hallways of the middle school. We have been operating on a theme of Sustainability and Repurposing, utilizing found and donated materials for learning projects. For instance, our 7<sup>th</sup> grade students are involved in a large project that utilizes shoes and other objects from homes. This initiative is rooted in “Portrait of a Graduate” choice-based objectives.

**ENRICHMENT**

The school-wide Enrichment Program focuses on implementation of the Mansfield Portrait of the Graduate Skills of Collaboration, Creativity, Critical Thinking, Communication, and Citizen of the World. Enrichment teachers collaborate with teachers across disciplines to provide programming for all students. In addition to supporting the needs of those students who demonstrate mastery beyond their grade level expectations, enrichment teachers provide opportunities to the larger school community through whole

class instruction and whole school activities. Enrichment teachers support project-based learning, interdisciplinary instruction, STEM, and experiences that supplement the general education classroom. Enrichment teachers in the middle school teach core content classes in addition to providing interest-based opportunities for all students. Overall, enrichment programming is flexible and tailored to specific building-based student needs.

**FIELD STUDIES**

21<sup>st</sup> Century Learning and the Mansfield Portrait of the Graduate requires that students explore and engage in authentic studies. Field trips/studies that are connected to standards and classroom instruction provide opportunities for students to learn outside of the classroom. Academically-related field studies are planned yearly for grade-level teams. Trips that align to Related Arts classes such as art, PE, music, and World Languages are also included. Funds support admission fees, transportation, and resources needed for these experiences. Travel can be costly and this budget helps to minimize student/family expenses.

Scholarships, the student activity funds, and parent/family associations such as the PTO help to subsidize costs of annual trips.

## SCHOOL COUNSELING

Two school counselors at the middle school work with students, parents, and teachers to develop strategies for successful school experiences. Much attention is given to students' transition from elementary school to middle school and from middle school to high school.

The school counseling staff continues to support school climate and assist in developing social-emotional learning curriculum. School counselors assume responsibility for management of the Youth Employment Program. Other highlights of the program include groups that support positive peer relationships and the College and Career Readiness Day in Grades 7-8.

In addition to College and

Career Readiness Day, the counselors host a monthly Career Café. This gives students an opportunity to learn about various careers and career paths. Each month we have a speaker and hold the café during lunch waves so that all students have access. The school counselors oversee an extensive transition program for students entering grade 5 as well as promoting to the high school, which includes a high school opportunity fair and an early awareness financial aid evening. The UCONN tutorial program is organized and supervised by the school counselors. Counselors facilitate parent conferences, including the formal two-day period in November. In addition, counselors facilitate numerous meetings to foster student success and improve home-school communication. They also

collaborate with Mansfield Youth Services Bureau and other agencies to coordinate services for families. The school counseling staff will continue to purchase and organize grade-level resources to provide a library for students, staff, and families. In addition, they will continue to organize student and parent activities. These activities include programs such as a developmental guidance curriculum for each grade-level that targets middle school issues such as organization, goal setting, motivation, coping with setbacks, transition to high school, and extra-curricular activities such as Sunshine Club.

## HEALTH AND SAFETY

Health education helps students understand themselves and others as they experience the strengths, challenges, and pressures of a diverse society. At the PreK – Grade 4 level, both the classroom teachers and the school nurses teach health and safety objectives as part of the health curriculum. School nurses and physical education teachers may also support the teaching of this subject by recommending appropriate materials. Curriculum components include physical development and health, hygiene, nutrition, reproduction and life cycles, safety and first aid, personal

safety, and prevention of substance-abuse.

At the Middle School, Health education helps students understand themselves and the personal needs of others, as they deal with the challenges and pressures of a diverse society. Students learn about healthy attitudes, nutritional practices, human growth and development, interpersonal and environmental issues. The health and safety objectives are incorporated into several subjects across the curriculum: science, life and consumer sciences, language arts, social studies, and physical education. Grade-level science teachers, the life and consumer science teacher and the nurse collaborate to teach human growth and development.

## LIBRARY/MEDIA SERVICES

The Mansfield Library/Media supports the love of reading, the development of literacy and information research skills, distribution and retrieval of materials from the collections, information needs of the curriculum, an online catalog, and reading incentive programs. The school libraries connect to classrooms to support literacy and information accessing with a focus on research reliability and digital citizenship.

Media Services assists all students and faculty in the design, setup, and use of audiovisual media to enhance instruction. It also provides setup and support of large-group presentations such as concerts, plays, all-school assemblies, adult education, community events, and performances. Media Services work to coordinate the efficient use of equipment throughout the school community while maintaining a comprehensive inventory of equipment and repairs.

**LIFE AND CONSUMER SCIENCE**

Mansfield Middle School's Life and Consumer Science program promotes instruction in all grades, helping students to develop the knowledge, attitude, and practices necessary to achieve success in personal, family, and community life. Students experience a wide range of topics and learn specific skills that are embedded in various units that include: Food science and nutrition, health, sewing, consumer economics, food preparation and service, in addition to service learning experiences. Students are engaged in hands-on learning that is aligned to the Mansfield Portrait of the Graduate.

**MUSIC**

The elementary music program engages students in active, creative, joyful music making. Students begin to learn the components of music literacy through sequential and developmentally appropriate activities where they create, perform, and respond to music. Singing with proper, developmentally appropriate techniques and matching pitch is an important component of the program. Students move, dance, and develop active listening skills while listening to music. Students experience a wide range of music from a variety of cultures, genres, and time periods. In

preparation for selecting and learning to play woodwind, brass, percussion, or string instruments, students learn to read rhythms and pitches, and synthesize these skills through recorder and mallet percussion instruction. Students in grades 2-4 may choose to be a part of the strings program and students in grade 4 may elect to begin playing band instruments.

The middle school music program includes general music instruction for all students and a strong elective system in band, chorus, and orchestra. The purpose is to develop in each student, as

fully as possible, the ability to perform, create, and understand music. Instruction leads to specific skills and knowledge with the additional goals of music literacy and the development of a positive student self-concept. The music department plans several concerts and performances throughout the year to showcase student work, learning, and talent.

**PHYSICAL EDUCATION**

The Mansfield Physical Education program is aligned to state/national standards and supports the BOE Wellness Policy and various Health standards. At the elementary level, PE is a developmental program based on the skill/theme approach. The elementary program scope and sequence is a planned approach that identifies when fundamental skills need to be introduced and when those fundamental skills will be mastered. These fundamental skills may later be refined to more specific sport, recreational, and work-related skills. Children progress at an individual pace to explore and discover their capabilities. The curriculum promotes individual success, gross motor development, increased knowledge and social development through physical activity. Students learn how their bodies work and move and how movement relates to the development of health and the maintenance of wellness.

The core of the Middle School physical education program is the development of physically literate students who are involved in physical activity that leads to a lifetime of healthy living. Curriculum focuses on mastery of skills which promote

increased confidence, competence, and participation. Student engagement is fostered through developmentally appropriate experiences which challenge student thinking, while providing opportunity for autonomy that places students at the center of their learning. Students participate in a wide variety of activities with a high degree of interest leading to improved skills, teamwork and sportsmanship.

**TECHNOLOGY EDUCATION**

Students in grades five through eight are offered hands-on opportunities to solve problems with materials and processes associated with today's technology. Exploration of these problems helps each student gain insight in the areas of design, project planning, and the use of tools and equipment. Students examine new technologies and the impact technology has on society and the environment. They are exposed to career opportunities and gain an understanding of how emerging technologies affect these opportunities.

Applying academic core content in the technology laboratory is the foundation of the technology education program. Technology education meets three times a week as part of the quarterly Related Arts "rotation." The program provides an individualized, laboratory experience in project design, planning, problem-solving, and production that includes the following topics: Woodworking, bridge design, plastic production, basic wiring, drones, use of CAD software, and 3-D printing.

Technology continues to incorporate 21<sup>st</sup> century skills into units of instruction. Students design, test, and construct projects with a variety of materials, computer software, machines, and tools. Students use online software programs to enhance learning knowledge.

## WORLD LANGUAGES

The elementary World Language program provides Spanish instruction to kindergarten through fourth grade students. French, Latin, and Spanish are offered in grades five through eight at the middle school. Program goals focus on appreciation and respect for different cultures, emphasize an incremental building of good language learning habits, and prepare students for life-long language acquisition. After a twelve-week World Language Exploratory program in grade five, students choose a language to study through grade eight. During the twice weekly meetings, this exploratory program in grade five is designed to encourage students to note contrasts and parallels among the languages, to foster a respect for cultural diversity, to gain some knowledge of global issues, and

to develop an interest in further world language study.

The language proficiencies gained by the end of grade eight are roughly equivalent to a first-year study at the high school level. In grades six through eight, classes meet three times per week. The focus of the grades five through eight program is to create a positive learning environment such that world language acquisition is student centered and accessible to all learners. Through this approach, students receive high quantities of necessary input in the target language to develop proficiency as defined by the World-Readiness Standards for Language Learning. Depending on the overall proficiency level of the student, as measured by the ALIRA or AAPPL exams, students who complete three years of language study at MMS may be recommended for Level II enrollment at the high school level.

## AFTER-SCHOOL PROGRAMS

**Tuesday Clubs**

**BIRD WATCHING**  
With Ms. Vega

Are you interested in learning more about our native birds and how to help them thrive? In this club, we will spend some time outside observing birds in their habitats, discuss ways we can help them, and also do some hands-on activities and projects. Be prepared for the outdoors, walking/hiking and light crafting. Binoculars, books and any supplies will be provided.

DAY: Tuesday  
TIME: 2:45 - 4:30  
LOCATION: Room 192  
ENROLLMENT: 18 students

**CHANGEMAKERS**  
With Mrs. Perkins

Come and help create the change that we need to make the world a better place. We are looking for students who deeply care and want to work to help solve the problems that we are facing related to the climate action, pollution, and resource management.

DAY: Tuesday  
TIME: 2:45 - 4:30  
LOCATION: Room 383  
ENROLLMENT: 18 students

The elementary and middle school after-school activity programs enable students to participate in creative, academic, and sports/fitness activities in a less-formal setting at the close of the school day. Programs are often open to students across multiple grade levels and allow for students pursue interests and opportunities to apply the skills and dispositions that are in the Portrait of the Graduate. The elementary school will support the continuation of current after-school programs while building new offerings that increase student voice and choice. At the middle school, a wide variety of programs will continue to be offered during four seven-week sessions, coinciding with the marking periods. The After-School programs provide students with opportunities to pursue academic, athletic, creative and social interests. Also, students have the opportunity to interact with others across all grade levels. Interest and participation in this program continue to be strong. Several new activities are offered each quarter.

**ATHLETIC PROGRAMS**

The interscholastic sports program at MMS includes seventh and eighth grade teams in soccer, cross country, basketball, baseball/softball, and track and field. The seventh and eighth grade athletic program meets the cognitive, physical, and psychomotor needs of the students. The programs in each sport improve students' physical fitness, as well as thinking and decision-making skills. Coaches of all teams stress teamwork, safety, commitment, academic standards, and good sportsmanship.

First aid supplies and safety equipment are regularly stocked for all sports. Efforts to comply with Connecticut Interscholastic Athletic Conference (CIAC) guidelines for player eligibility and coaching certification are on-going. A medical exam record for any student participating in athletics is required each year. Most teams are coached by an MMS staff member with a second adult acting as assistant coach. This allows for support to student athletes during the school day.

The program seeks to continue its present successful operation with emphasis on budget control. Focus is placed on creating strong relationships with neighboring schools while keeping a strong feeling of school pride on the teams. The emphasis this year is to have all coaches participate in State mandated coaching courses offered by the CIAC to renew certificates.

## INTERVENTION (READING & MATH)

The Reading and Math Intervention programs support supplemental instruction designed to accelerate learning for general education students who need additional support in basic skill areas. Using the structure of Multi-Tiered Systems of Supports (MTSS), students are supported with resources, tools, and direct instruction within the classroom, in small groups, and when needed, one to one. At the elementary schools, intervention support is provided by the classroom teacher, building based literacy coach/ reading teachers, tutors, and/or para-educators. At the middle school level, reading support focuses on the development of foundational skills for written and verbal communication, developing inferences, analyzing a variety of viewpoints, and critical thinking. There is also a focus on the development of foundational math skills that address the critical areas of focus outlined in the Common Core State Standards at each grade level. Intervention is supported by classroom teachers, tutors, and para-educators.

## SUMMER LEARNING EXPERIENCES

The summer learning program is designed to provide supplemental instruction aimed at acceleration of learning through problem and project-based learning experiences anchored in academic standards. At the middle school, the program is in session for three hours a day, four days a week for a two-week period. A total of two summer sessions are offered. Students may attend one or both summer learning sessions. Embedded within the summer learning framework is the use of Multi-Tiered Systems of Supports (MTSS). Students in attendance are supported with resources, tools, whole class and small group instruction that grows academic skills through engaging and authentic task/project work. The

summer school program provides transportation. Staffing configurations allow for a small teacher to student ratio. This structure promotes community connectedness in which adults know their students and support the success of the whole child.

The elementary summer program will continue its expanded program. Special education will continue to offer extended school year (ESY) services that pairs with the general education summer learning program and increases opportunities for enrichment, voice and choice, and applying the skills and dispositions of the Portrait of the Graduate.

Mrs. Allen's class has been jam packed with exciting activities. They have continued to grow as a second grade family. They have been working on space activities as well as reinforcing their first grade foundational skills. They are going to miss being together!

**PRINCIPALS' OFFICE SERVICES**

The Principals' Office Service funds support the salaries of administrators and secretaries. In addition, funds also support general office supplies, postage, equipment/furniture, program services, and administrative resources needed to support the leadership of the elementary and middle school programs. Administrative teams communicate plans, expectations, goals, and data that supports the District Development Plan. The principal and assistant principal advance the educational process of the school by providing the organizational support to help teachers carry out instruction which includes supporting student behavior and social emotional learning. Office supplies, postage for school mailings and administration costs and stipends for team leaders and budget coordinators are covered by this account.

**GENERAL INSTRUCTION**

The District Management budget supports Teaching and Learning and general instruction through various positions. The Director of Teaching and Learning oversees curriculum, instruction, assessments, and professional learning. Specifically, this office provides leadership and vision in the ongoing implementation, development, direction, review, and evaluation of the district’s curriculum and instructional practices. In addition, the director has a focus on professional learning with regards to

assessments and tasks that provide evidence of transfer and deep learning while developing systems for reporting, student reflection, archiving evidence, and student-led conferences.

The director and staff ensure that the district’s work is aligned to the Mansfield BOE’s development plan, meets state/federal requirements that yields the highest standards of student

achievement and instructional excellence. Staff within this location includes three teachers who work in our schools, with students, staff, and families: ELA Curriculum Consultant, Mathematics Curriculum Consultant, and the Technology Integrationist. The district’s Core Belief, that calls us to “build partnership with our families and community, is supported through these staff members who offer workshops and events that support stakeholders who want to learn more about our curriculum, practices, and programs.

**BOARD OF EDUCATION**

These funds support the functions of the elected body created by state law, vested in the responsibility for policy-making and education planning for the school system. The "Salaries and Wages" line-items include the cost of retirement benefits, a sum for salaries yet to be negotiated, and other non-specific salary charges. Included are the salary and activities pertaining to the duties of the Clerk of the Board of Education and reimbursement of expenses incurred by Board members in performing their duties.

**BUSINESS MANAGEMENT**

Business Management provides financial management services to the Mansfield Board of Education. The following basic functions are performed: financial planning, policy making, accounting, and bookkeeping services, financial statement preparation, treasury management, budget preparation, and risk management. In addition, Business Management provides cost/benefit analysis of any building repairs and improvements for creating an energy efficient middle school.

The cost of shared Financial and Information Technology services is determined by the cooperative agreement between the Town, Board and Region 19 dated July 1, 2016. Per this agreement, the Board pays 25% of Shared Finance.

**CURRICULUM DEVELOPMENT AND PROFESSIONAL IMPROVEMENT**

Grounded in the core belief Grow Educators, the professional development budget provides for the ongoing education of staff and administration, to improve instruction and to develop curricula. Professional development is a key strategy used to strengthen educators' impact in the classroom. Student learning and achievement increase when educators engage in effective professional development that is aligned to professional goals, research, standards, and best practices.

The professional learning model allows for cycles of collaborative learning, practice, and reflection that grow the collaborative expertise of our educator community. Teachers engage in professional learning that is relevant, useful and timely in many ways such as weekly grade level/department meetings, faculty meetings, lab sites, job-embedded release days, district professional development days, and institutes, as well as attending events outside of the district. The MPS Teacher Evaluation Plan continues to be a key lever that supports the professional growth of our educators. Rooted in action-based research, collaboration, and professional learning, this plan allows teachers to collaboratively develop an understanding of their students and research and identify best practices that support continuous student growth.

Across district, there will be a continued focus on the following areas: student centered learning across the disciplines, 21st Century Skill development, Science of Reading / balanced literacy approach, developing a math workshop, deep learning practices that engage learners as collaborators, innovators and problem solvers, multi-tiered systems of support (MTSS) and social and emotional learning.

Professional development grounded by the MPS key drivers and core beliefs ensures alignment of practices focused on supporting the ongoing success of our students. Student learning and achievement increase when educators engage in effective professional development focused on the skills educators need in order to address students' major learning challenges in at-risk, grade level and above grade level students.

**EMPLOYEE BENEFITS**

These funds support employee benefit expenditures, including medical insurance, social security and pension expenses, worker's compensation and unemployment coverages. The largest single item in this category is medical insurance, provided through a self-insurance fund with the Town and the Region 19 Board of Education. The Director of Talent Management and Human Resources manages and supports employee benefits that includes collective bargaining agreements, recruitment, hiring, onboarding, and retention of district staff members.

**INFORMATION TECHNOLOGY/COMPUTER EDUCATION**

The goal of the information technology program is to provide each student and staff member with access to instructional technologies to support growth and learning. We continue to see robust use across the curriculum, particularly around project-based learning with an emphasis on offering student choice. Students are successfully making use of their one-to-one devices (Chromebooks in grades 2 – 8; iPads in grades K – 1) along with a wide range of cloud-based tools.

The Technology Integration Specialist has been essential to this work as they provide professional development; vision and leadership; and direct technology and instructional expertise in our classrooms. Technology can be challenging to integrate into instruction, and this position bridges the gap by supporting staff, students, and families. This past year, the position has provided professional development and support to every staff member, including teachers, paraprofessionals, support staff, and administrators. This position is regularly working directly with students through co-teaching lessons in the classroom, leading innovative experiences during and after the school day, assisting students individually, and participating in student events. The position has been active with families both by providing direct assistance to families for using school technology as well as through developing new outreach and tools for families. The demand for the Technology Integration Specialist has significantly exceeded what we can meet with only one individual to serve all of the staff, students, and families in the District. We know this need will only increase in the coming year given trends such as the growth of AI in instructional planning tools, the successful expansion of student electronic portfolios, the integration of coding into student experiences, the rapid growth in the use of data to inform instruction and planning, and the ever-evolving nature of technology tools. We are responding to this need by budgeting for an additional 0.5 FTE for this key position.

The proposed non-staffing operating budget was held at a zero increase despite a climate of inflationary pressures on license pricing and increased use of resources. This was achieved by a strong effort by the Information Technology team to control costs. Through increased use of our own staff to repair items in-house and repurpose parts, we have decreased repair costs by \$5,000. Additionally, we carefully monitored and reduced software license numbers where possible, aggressively negotiated pricing with vendors, and maximized sharing of resources when appropriate. Finally, by budgeting for 1.5 FTE Technology Integration Specialists, we are able to meet more needs in-house and thereby reduce some external purchases.

**PLANT OPERATIONS – BUILDING**

The Mansfield School District is comprised of two school buildings, a portion of the Town Hall and a portion of the Maintenance Building, which is located on the grounds of the former Mansfield Training School. This account includes the cost of heating, lighting, cleaning, and keeping the buildings in good repair. Long-range planning has been instituted to update the middle school and prevent the deterioration of facilities through capital planning.

The District will continue programs to pursue using products and practices that are environmentally friendly and sustainable in all schools. We will continue to support professional learning focused on safety, energy,

and new technologies that are integrated into our building systems.

**REGULAR TRANSPORTATION**

The Regular Transportation program is designed to transport students to and from school in a safe, economical and efficient manner. 2025-2026 will be year five in a five-year contract with M & J Transportation. Funds also support the appropriate use of GPS technologies to improve routing and communication.

**SUPERINTENDENT'S OFFICE**

All activities associated with the general administration of the school system are included in this budget. Responsibilities include local community relations, cooperation with regional, state and federal agencies, implementation of Board policies, curriculum implementation, and district leadership to advance the Board of Education's Mission and Core Beliefs. Highlights include public communications, preparation of program plans and budgets, technology tools to support operations, and specialized support for outside agencies.

The district's Central Office staff supports multiple departments that include Student Support Services, Teaching and Learning, Talent Management & Human Resources, as well as Food Services.

## SPECIAL EDUCATION & SUPPORT SERVICES INSTRUCTION

The purpose of Special Education is to ensure that children with disabilities have an appropriate educational program in the “Least Restrictive Environment” (LRE), the most typical setting possible and the requirements of the federal legislation, Free Appropriate Public Education (FAPE) are followed. Special education personnel address the needs of the whole child, whether academic, social-emotional or both. Special education staff work collaboratively to provide services along a continuum depending on what the student needs and the best way to meet those needs whether within the general education classroom, resource room, or intensive resource room. A large part of this work is partnering with families.

Special education staff continue to grow in their understanding of the Connecticut Special Education Data System (CT-SEDS). Staff have also received training to improve their understanding of function based behavior in order to better support the behavioral needs of our students. Integrating the work of special education staff with that of general education teachers continues to be a focus for the year.

**HEALTH SERVICES**

Utilizing nursing interventions can significantly minimize student absenteeism and optimize student health and learning with an ultimate intention of keeping students in the classroom. Communication and collaboration with school personnel, families, and community agencies regarding health and wellness, health trends, general health policies, and illness prevention, to name a few, is essential to this process. School nurses identify and evaluate health needs of students with a broad range of physical, developmental, behavioral, and emotional conditions that may directly impact student academic performance. School nurses provide system-wide health services for members of the school community who have acute, chronic and emergent health care needs.

School nurses continue to meet the demand for skilled nursing procedures for students with chronic health conditions (e.g. gastrostomy tube care and monitoring, gastrostomy feedings, routine ostomy care and emptying, diabetic glucose monitoring).

**EXTENDED SCHOOL YEAR SERVICES (ESY)**

Extended School Year (ESY) services provide children with special education needs beyond the typical academic year as mandated by an Individualized Education Program (IEP). While ESY services are not “summer school,” many of the services follow a similar schedule. In the past, ESY summer programming has been provided for three hours a day, four days a week for a four-week period.

The 2024 ESY program provided targeted instruction to students in Prekindergarten to 8<sup>th</sup> grade. Students received targeted instruction based on IEP goals and objectives. Students were also able to join activities that were part of the larger summer learning experience program. ESY also provides an opportunity for additional staff training. Paraeducators and teachers were able to improve their understanding of augmentative and alternative communication devices as well as hone skills with discrete trial instruction.

The ESY summer program was staffed by two special education teachers, one at MMS and one at MES. In addition, students received occupational therapy, physical therapy and speech and language therapy.

**TUITION & SERVICE PAYMENTS OUT OF DISTRICT**

This area represents the costs assigned to sending students serviced under special education to private out-of-district programs. The decision of placement is made by the Planning and Placement Team (PPT) with services and instruction outlined through the student's Individualized Education Program (IEP). Decisions to place a student in an out-of-district placement are made with thoughtful consideration of the least restrictive environment for learning. Special education services for students attending magnet schools is also included in this section.

The proposed budget estimates costs for students to continue in their current outplacement programs for the upcoming school year. The Excess Cost Grant (ECG) and special education reserve funds will offset part of the overall cost.

**OUTSIDE EVALUATIONS/CONTRACTED SERVICES**

This program provides necessary support services for children, pre-kindergarten through grade eight. Contracted services consist of occupational and physical therapy evaluations or screenings, as well as outside evaluations completed by independent psychiatrists, psychologists, or specialists.

At times, the mental and physical health of our students requires consultation with outside specialists. Additional evaluations are sought to provide targeted information that can directly impact student learning. Our contracted partners have been beneficial members of the support services team.

Support Services staff have built their own skill sets while working in partnership with our consultants. Occupational therapists and physical therapists provide valuable consultation for staff in addition to providing direct services. The outside evaluations and contracted services are essential to meeting a wide range of student needs.

**SPEECH AND LANGUAGE**

School-based Speech and Language Pathologists (SLP) provide services for students with articulation, voice, fluency, language comprehension and expression, social language skills, feeding, and hearing disorders. These services are designed to help children meet their educational goals. Speech and language evaluations and re-evaluations are also provided throughout the school year.

SLPs work directly with children individually, in small groups and/or within the general education classroom. In addition, they work indirectly through teachers, paraeducators, parents and Birth-to-Three team members, with on-going consultation throughout the school year. SLPs attend collaboration meetings with school teams and families and respond to referrals from other Mansfield area programs. They also comply with Child Find through the prekindergarten spring screening and additional screenings throughout the school year. Speech and language pathologists manage FM Units and hearing aids and collaborate with other outside agencies.

SLPs provided a wide range of services and support total communication. This includes the use of augmentative and alternative communication (AAC) devices. In addition to our SLPs, the Speech and Language Pathologist Assistant (SLPA) has increased our ability to meet student needs at the elementary level.

**STUDENT MENTAL HEALTH SERVICES**

Student mental health services include a team of school psychologists and school social workers at each building. These staff members work collaboratively with other student support personnel and special education teachers to address the educational program of students in each school. Staff work closely with parents, guardians, the Mansfield Youth Service Bureau, physicians, and other outside professionals and agencies to coordinate mental health services for students and families from the community.

School psychologists manage the Planning and Placement Team (PPT) process, assess the needs of students, and consult with staff and parents/guardians. In addition, school social workers and school psychologists provide individual and group-counseling services, implement and monitor behavioral supports, and coordinate with community service agencies. They also provide whole class social skills instruction. School social workers have taken the lead on reducing student chronic absenteeism. They have partnered with families to eliminate obstacles to school attendance.

The student mental health services team works in collaboration with Mansfield Middle School Counselors and Mansfield Youth Services Bureau Social Workers to develop supports based on student needs. This team is actively involved in school-based CARE teams providing a range of assistance to students and families. Much of this work involves home visits to provide personalized connections.

The district has partnered with Board Certified Behavior Analysts (BCBAs) through EASTCONN for many years. Our demand for their skill set has increased over time. Having a BCBA on staff will help address the ongoing behavioral needs at the elementary level and allow us to meet student needs within the least restrictive environment.

**STUDENT SUPPORT SERVICES ADMINISTRATION**

This program provides for the management and supervision of programs included under Special Education and Student Support Services. These programs are intended to assess and provide for the well-being of students, provide instruction for children with special needs, and support general instructional programs as needed. Areas of responsibility include special education, speech and hearing services, school psychology services, occupational therapy, physical therapy, English as a Second Language (ESL) instruction and other state and federally funded programs.

Staff continue to monitor student progress and growth in meeting state and district assessments. Special education staff strive to meet the individual needs of their students so that they can be successful in the general education environment. The support services staff continue their work in providing targeted, and early, intervention for all students.

In addition to the ongoing work of the special education department in ensuring that all students receive the supports they need to be successful in school, the department will focus on building continued partnerships with families. The department continues to seek community partners to help meet the complex needs of our students.

**STUDENT SUPPORT SERVICES TRANSPORTATION**

This program provides transportation for students with special needs or with temporary medical needs who require specialized transportation. These transportation services fall outside the contract with M&J Transportation.

Students and families report satisfaction with their specialized transportation. The department makes an effort to find the most cost-efficient transport options without sacrificing service to students.

The budget supports the goal to continue to provide safe and efficient transportation for all Mansfield Public School students with special needs or temporary medical needs. Transportation is also provided to students who are found eligible under the McKinney Vento Homeless Assistance Act. The intention of this act is to remove barriers to learning for homeless students. To that end, transportation funds are used to ensure that students are able to continue attending school.

**MULTILINGUAL LEARNER PROGRAM**

The Student Support Services department manages an ESL (English as a Second Language) Program to students who qualify as Multilingual Learners (ML). Though this appears in the special education section of the budget, it is not a special education program.

ML's receive individual or small group instruction focusing on the linguistic competencies of listening, speaking, reading, and writing. Within the classroom setting, MLs have access to content academic instruction with modification and supports as necessary to promote academic success, grade promotion, and high school graduation. While the rate of English language development varies widely from student to student, many students exit the ESL program in 3-7 years. Any ML with a disability, who is eligible for an Individualized Education Program (IEP), has the right to receive a free and appropriate public education, designed to meet the child's language needs as outlined in the IEP.

The district continues to seek ways to support our Multilingual Learners and their families given that our students come from homes that represent 29 different languages.
